

VALENTA

We are introducing Mr. Vladimír Valenta, painter and graphic artist.

He was born in Czech Republic in Bruntál on 22 May 1962.

Vladimir is a great lover of horses.

Horses are literally a necessity of life for him. He perceives their beauty and noble form with all his senses. Horses, portraits of people and caricatures make up the vast majority of his work.

He is called „Real painter of soul“.

He studied private study in the studio of painters in Munich – M.A. Red Sculescu (the last student Salvator Dali) and in Prague – akad. mal. Josef Sekyra and Karel Saudek.

He has been interested in painting and drawing since his childhood.

He has painted and drawn portraits and caricatures professionally over 25 years.

He set out his first exhibition 1990 in Prague. Since then he has been exhibited his works as one-man shows in 22 places.

His painting and drawings are placed in galleries and private collections in nearly eighty countries around the world.

He constantly invents and uses new and unique techniques of drawing.

He modestly admits: "We may not want to create something perfect, but it is useful to observe nature correctly and to imprint the work with our own feeling. I create for the joy of the unexpected."

Vladimír had studios wherever he made his works: Prague, Munich, Freiburg, Strasbourg, Woerden, Amsterdam, Bangkok, Chiang Mai, London, Vienna, Paris, Barcelona, Zurich and Pardubice.

PORTRAITS

Vladimír Valenta has been painting portraits for over 40 years. He draws and paints using all known techniques and tries to find others, the unknown and untried ones. He doesn't care about the anatomy of the face, he observes something more carefully, what is important to him is the soul of the person.

PORTRAITS in ONE STROKE

A portrait sketch in one stroke. Can you even imagine? It only takes 9 minutes, that's just a fleeting moment of human life. Throughout the drawing, the artist's pencil never leaves the paper and is constantly moving. The painter studies the model's face and draws at the same time. He must have his eyes literally everywhere. There are only a handful of artists in the world who can do this. It is the highest mastery of portrait drawing and requires extraordinary skills. Vladimír Valenta also draws such sketches at social events. Here is a drawing of Adéla, which he drew at her aunt's wedding. A kind photographer captured the very moment when the sketch was being created.

It is best to paint a portrait live. But if you want to surprise someone and make them very happy, the painter must choose the option from a photograph. It is always desirable that the original is legible, in good resolution and well lit. You have a great chance to write yourself down in history as a loving person. A painted portrait is the most personal gift that exists. It surpasses all photographs, even artistic ones.

CARICATURES AND PORTRAIT SKETCHES

EYE TO EYE LIVE

A look into the eyes and the painter captures that special moment. It only takes 5 minutes and a memory for the rest of your life is born. It's a magic that AI can't even come close to.

More than thirty years of practice and the skill of an empathetic painter can create a small miracle.

CARICATURES AND PORTRAIT SKETCHES

EYE TO EYE LIVE

Vladimír Valenta has drawn and painted presidents of states, nobles, very famous celebrities, heads of huge companies, top managers of companies and he always observed the same way as when he draws a small and restless child. He does not care about the profession, age, social and ethnic profile. He simply wants to give joy to the simple person who sits in front of him.

He always draws caricatures and portrait sketches quickly, accurately and with love. He draws and paints in all techniques, for any background and is able to change and mix them together into an original painting even during the event.

CARICATURES

The caricature should be kind. Fun is important, but the recipient should not get a heart attack from some horror. We all have the right to rejoice in complete safety.

COMICS

COMICS are the most impressive way to convey any story to absolutely every person. When humor is added, the story becomes very popular and memorable. Vladimír Valenta respects the client and listens carefully to his instructions. Success is guaranteed.

This was originally supposed to be a comic for children. The client wanted to show in a fun way how things are done in their society. When the children brought it home, the parents stole it from them. They were thrilled with this form of communication. The parents learned things that they didn't know before.

PAINTINGS ANGELS FROM VALENTINE

Many people really like angels. But the universe is very diverse and so is the vision of the painter. That is why Vladimír Valenta paints an angel differently every time.

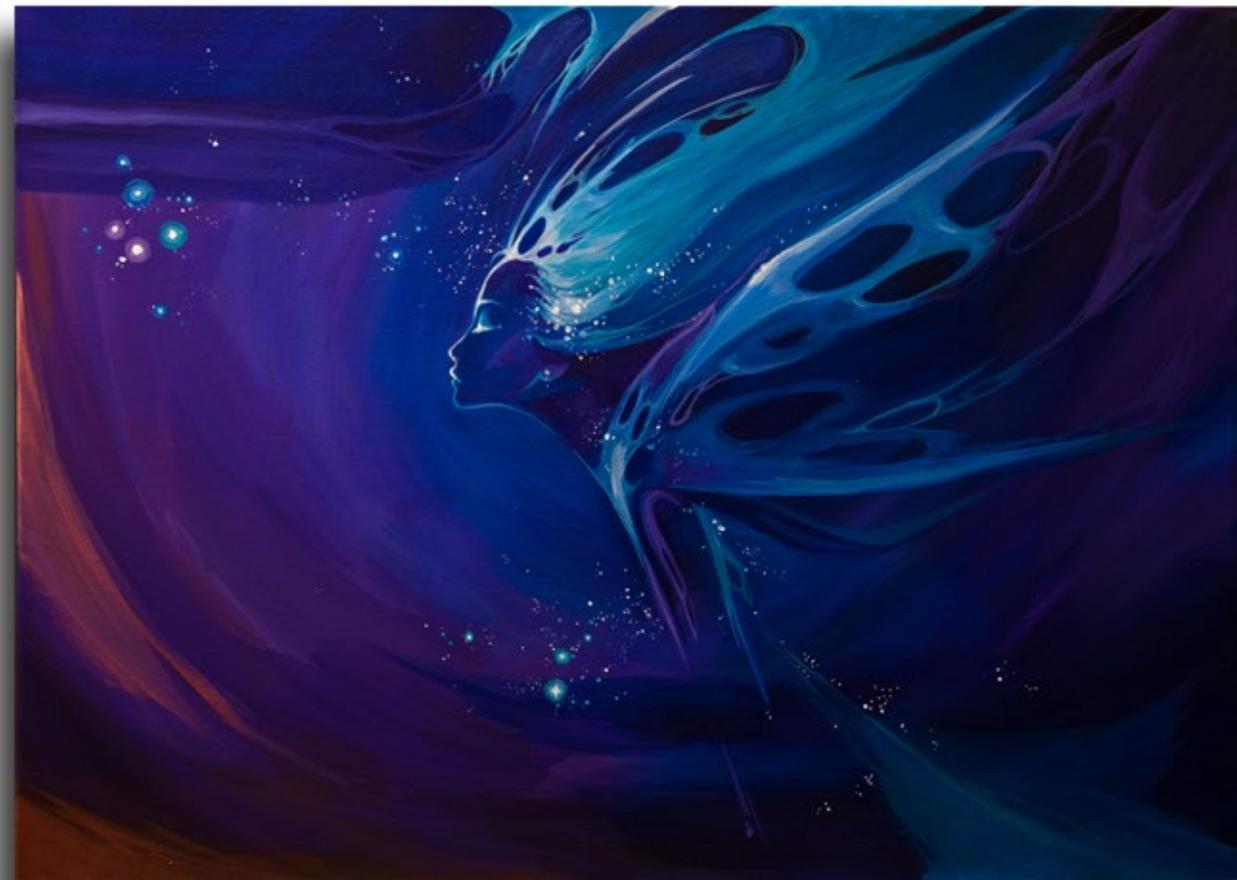

There are no two identical or somehow similar angels from this painter in the world. After all, dreams and visions are so rich.

BODYPAINTING TV COMMERCIAL

Vladimír Valenta was the lead and main painter in the team of artists who worked on the TV spot "SPRITE CAMOUFLAGE" for the global campaign. He painted the most complex motifs on clothes and skin. The entire project took 1,200 hours of work and used almost 500 pounds of paint.

BBH Art Director Jeffrey Sun paid great attention to detail. Whether it was a man on a park bench or a man standing at a newsstand, they simply had to blend in with their surroundings. Everything worked out and **the result was perfect.**

BODYPAINTING TV COMMERCIAL

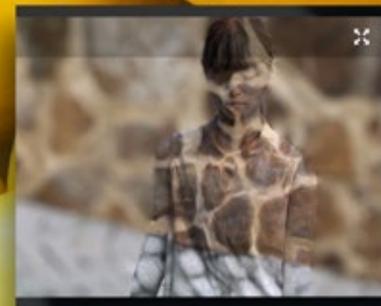

Vladimír Valenta and David Šesták were the main painters during the filming of the TV spot for the HTC 2 BUTTERFLY mobile phone for the whole of Asia. The filming took place in Rakovník and Prague.

As the main makeup artists, they painted camouflage on clothes and skin.

The acting and modeling were made up of girls from the Japanese singing group NOGIZAKA46.

The cooperation was very pleasant. Vladimír Valenta first met the great singer and model MAI SHIRAISHI, who played the main role, and they immediately became good friends.

It should also be said that Mai Shiraishi is a real shining star in Japan. In the joint photo, she is first from the right, next to Vladimír Valenta.

CAR PAINTING

Painting cars is not an unknown concept.

However, Vladimír Valenta has invented a type of paint that he can paint on **without damaging the car's paint.**

This means that the client can have any artistic motif on the car and then wash the car without damaging the paint.

Here is an example. The FORD company ordered car painting and as a bonus for the audience wanted a **BODYPAINING SHOW.** Vladimír Valenta **Painted the same car in nine cities in the Czech Republic.**

It was a yellow Ford Ka. In each of the nine selected cities, he painted the car with a different theme over the course of three days. During each day, he also painted on a model in three shows.

After three days, the car was washed and driven to the next city for the **FORD ROAD SHOW.**

Vladimír Valenta started taking photographs simply because it is much easier than painting.
